

Tent Sizing Guidelines

Tent Sizing depends on a multitude of variables. For accurate tent sizing please use method below:

Tent Sizing

Tips For Lighting:

- 40x Frame tents and pole tents need perimeter lighting plus a strand down center length of tent (length +10' extra)
- 50x Pole tents need perimeter lights plus a center swag down length of tent (length +10' extra)
- 50x Pole tents require 8' sidewall

- When sizing tents first determine what is going under the tent to judge amount of space needed. Use following space requirements to help gauge sizing needs:
 - 48"/60" Round table with chairs = (1) 10x10 square
 - Banquet Table with or without chairs = (1) 10x10 square
 - Average Dance Floor = (4) 10x10 squares
 - DJ = (1) 10x10 Square
 - Band = (2) 10x10 Squares
 - Bar = (1) 10x10 Square
